

Underwater Speaker

Your athletes can no longer say that didn't hear you. Now you know they can.

Underwater Speaker (SP-UND)

The underwater speaker allows you the unique opportunity to coach your athletes mid-pool. Your underwater speaker should be used in conjunction with your Championship Start System, and is ideal for:

- Talking to swimmers underwater
- Broadcasting a recall tone
- Clearing the pool
- SCUBA instruction

Pair it with a wireless microphone for easy and efficient communication.

Immersed cable operates at low voltage (20 Vrms), meeting UL and EU 30 volt legal limit. Rugged military-grade PVC and EPDM construction will not leak, rust or corrode in the swimming pool environment.

Operating depth: 6ft (1.8 m) recommended; 50 ft (15.25 m) maximum

Recommended quantities: one underwater speaker for a 25 yd pool

two underwater speakers for a 50 m pool

Weight: 15 lbs (6.8 Kg) in air; 3 lbs (1.4 Kg) in water

Dimensions: 10.75 x 10.75 x 7.75 inches (27.3 x 27.3 x 19.7 cm)

Made In USA - CE marked for export to E.U.

Revised 04/10
