Mecklenburg County Aquatic Center Takes Their Facility To The Next Level with Colorado Time Systems

For 20 years Mecklenburg County Aquatic Center Chooses Colorado Time Systems

Loveland, CO—August 26, 2011- Mecklenburg County Aquatic Center, a world class natatorium in Charlotte, NC, has chosen to continue their 20 year tradition of using only Colorado Time Systems' (CTS) precision timing and display products. After a competitive bidding and research process, Mecklenburg County again selected CTS and unveiled their new LED full color video display & 8 line scoreboard at their 20th anniversary celebration.

Colorado Time Systems wants to congratulate Mecklenburg County Aquatic Center for reaching the 20 year mark and always maintaining the role of being one of the premier aquatic centers in the US. With their recent upgrades, the aquatic center is now capable of displaying text and scoring results, animations, and true video (live and instant replays). These upgrades are a significant advancement in their technological capabilities and the experience they can bring to competitors and fans. CTS is pleased to have been a part of their long history and value their ongoing relationship.

"Reaching our 20 year anniversary is a large milestone for us," says Gennifer Reel, Mecklenburg Aquatics Manager. "For the past 20 years we have had Colorado Time Systems technology in our facility but this year it was time to make major upgrades to the aquatics center in order to compete with the newer facilities. We researched all manufacturers, talked to coaches & other facilities. When the bidding and research process was done we decided that Colorado Time Systems was the best price with the most value...it really was a no brainer...this upgrade brings our facility to a whole new level."

About Mecklenburg County Aquatic Center: Based in Charlotte, NC it includes a 50 meter competition pool and is the premier host to many national events like Charlotte UltraSwim, which is part of the USA Swimming Grand Prix Series, attracting high profile swimmers like Michael Phelps. This is also the chosen facility for SwimMac, a USA Swimming competitive swim club, training all ages up to Olympians.

About Colorado Time Systems (CTS): Based in Loveland, Colorado, Colorado Time Systems has established a reputation for precision and innovation in swim timing equipment. Since 1972, premier aquatic facilities have chosen Colorado Time Systems for platinum quality timing, scoring, and display systems.
